AVAILABLE SERVICES

Program Administrator Control (Business Customers Only). The Service allows you to identify individual administrators and delegate access and authority with respect to Site and Service features and functionality. Access and authority will be governed by User IDs assigned to the individual administrators. You shall be responsible for administering and maintaining the security of such User IDs.

View Related Accounts (Business Customers Only). This feature allows you to see a listing of all your credit card accounts with Bank.

Account Summary. By accessing the Site, you can obtain information regarding your accounts, including account balance, payment information, available credit and credit limit.

Pending Authorizations. You can obtain information about your recent transactions that have been authorized (and your available credit reduced accordingly), but not yet posted to your accounts.

Transaction History. You can obtain information on credit card transactions that have been posted to your accounts, both for the current billing cycle and for past billing cycles, similar to the information contained in your regular credit card statement.

Activity History. You can view detailed information about a specific transaction.

File Downloads. This functionality allows you to download information regarding posted transactions to certain personal finance software packages. You shall be responsible for obtaining and maintaining such personal finance software packages.

ACH Online Payments. This function allows you to pay your credit card bill from your deposit account at Bank or at another financial institution. By using this function, you authorize Bank or its service provider to debit your deposit account that you identify for this purpose. If you perform this function, but there are insufficient funds in your deposit account to cover the payment amount, the payment will not occur. You must verify that there are sufficient funds in your account to cover the payment you authorize and make other payment arrangements if such funds are insufficient. You may not make any ACH Online payment within 72 hours of your last ACH Online payment. There may be other online payment options for paying other bills through "Linked Sites" as described below.

Account Information. The account information available through the Account Summary, Pending Authorizations, Transaction History, Activity History, File Downloads, and View Reward Points functions of the Service is not intended to replace the regular credit card statement you receive by mail or other means. You must refer to your regular credit card statement for complete account information, including important information about your rights and obligations.
